

UNIVERSITY OF ILLINOIS URBANA-CHAMPAIGN

# CONVOCATION

DECEMBER 18, 2020

**I** ILLINOIS LAS

## TO OUR GRADUATES

Today you are graduates of the University of Illinois. It is a remarkable achievement, and we hope that you celebrate the occasion with loved ones. Commencement is a joyous and deeply symbolic event for all, including the faculty members and staff who have supported you on your journey. It is profoundly disappointing that we are unable to celebrate it together this winter. The Class of 2020 will long be remembered, however, for not only what was lost, but for your resilience and determination as you finished your degree in the face of one of the greatest challenges in our nation's history. Congratulations, and we look forward to learning of your future success.

# ACADEMIC DRESS

Academic dress, consisting of cap, gown, and hood, originated about the twelfth century and was worn primarily for warmth. Subsequently, the material of the gown and lining, and the shape of the hood, represented the economic and social, as well as academic status of the wearer.

In the United States, the great majority of the academic costumes now worn are in accordance with the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1960. Under this code, the bachelor's gown has pointed sleeves, the master's gown has oblong sleeves with an arc at the bottom, and the doctor's gown has bell-shaped sleeves. All gowns are black, although the adoption of colored gowns by individual institutions in the United States is becoming more prevalent.

The bachelor's and master's gowns are untrimmed. The doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing and bars may be black or may be the color of the subject to which the degree pertains. The bachelor's gown is worn closed; the master's and doctor's gowns may be worn open or closed. Women may wear white collars with the bachelor's gown when no hood is worn.

Hoods are also black. The bachelor's hood is 3 feet in length, the master's is 3 ½ feet, and the doctor's is 4 feet. Hoods are lined with the official color or colors of the college or university conferring the degree. At the University of Illinois, the lining is orange and blue. The colored velvet border of the hood, which is 2 inches, 3 inches, and 5 inches wide for the bachelor's, master's, and doctor's degree respectively, identifies the faculty or field of study to which the degree pertains.

The black mortarboard cap is standard in the United States. Usually, all tassels are black, but where the graduating seniors do not wear hoods, as at the University of Illinois, the color of the cap tassel indicates the department of study. At the University of Illinois, candidates for degrees wear tassels on the right front quadrant of their caps before degrees are conferred, and move them to the left front quadrant after degrees are conferred. Caps are considered a part of the costume and are customarily removed only during an invocation or benediction, and then by men only.

For all academic purposes, including trimmings of doctor's gowns, edging of hoods, tassels of caps, and linings of banners, there are different colors associated with the different disciplines. The color for Liberal Arts & Sciences is white.

Caps and gowns were worn for the first time at the University of Illinois Commencement ceremony of 1897. In the early 1900s the Commencement procession marched up Burrill Avenue to the old Armory. After diplomas were received, the procession marched back to the lawn south of Green Street. The seniors sang the State song and "Auld Lang Syne" before they said good-bye to each other and the campus.

# ALUMNI SPEAKER

## **DR. JULIE MORITA (BS, '86, biology)**

Julie Morita, MD, is executive vice president of the Robert Wood Johnson Foundation (RWJF), where she oversees all programming, policy, research and communications activities.

As the nation's largest private philanthropy dedicated solely to improving the nation's health, RWJF is focused on building a comprehensive Culture of Health that provides everyone in America a fair and just opportunity to live the healthiest life possible.

Previously, Morita helped lead the Chicago Department of Public Health for nearly two decades, first as the Immunization Program medical director, then as chief medical officer. In 2015, she was appointed commissioner, where she oversaw the public health needs of 2.7 million residents in the nation's third largest city.

Morita began her medical career as a pediatrician in Tucson, Ariz., before moving into public health as an Epidemic Intelligence Service officer at the Centers for Disease Control and Prevention in Atlanta (CDC).

Born and raised in Chicago, Morita earned her undergraduate and medical degrees from the University of Illinois. She completed her residency at the University of Minnesota.

# THANK YOU

A special thank you to all who helped produce this celebration.  
Thank you to the family and friends who have supported the graduates  
throughout their time at the University of Illinois.

---

## **Degree Information**

This program contains an unofficial list of candidates for graduation on December 18, 2020. The list of August graduates and December candidates is as accurate as possible; however, because of production deadlines, names of some degree recipients may not appear, while names of degree candidates who have not completed degree requirements may be included.

The University's official registry for conferral of degrees is the Office of the Registrar, 901 W. Illinois Street, Urbana, IL 61801.
